Chipotle Announces Second Quarter 2019 Results COMP SALES ACCELERATE TO 10%, DIGITAL SALES INCREASE 99%

NEWPORT BEACH, Calf., July 23, 2019 /PRNEWSWIRE/ -- Chipotle Mexican Grill, Inc. (NYSE: CMG) today reported financial results for its second quarter ended June 30, 2019.

Second quarter highlights, year over year:

- Revenue increased 13.2% to \$1.4 billion
- Comparable restaurant sales increased 10.0%, net of 40 bps from loyalty deferral, and included nearly 7% of comparable restaurant transaction growth
- Digital sales grew 99.1% and accounted for 18.2% of sales for the quarter
- Restaurant level operating margin was 20.9%, an increase from 19.7%
- Diluted earnings per share was \$3.22, net of a \$0.77 after-tax impact from expenses related to restaurant asset impairment, corporate restructuring, and certain other costs, a 91.7% increase from \$1.68. Adjusted diluted earnings per share excluding these charges was \$3.99, a 39.0% increase from \$2.87.¹
- Opened 20 new restaurants and closed 1

¹ Adjusted net income and adjusted diluted earnings per share are non-GAAP financial measures. Reconciliations to GAAP measures and further information are set forth in the table at the end of this press release.

"We're pleased with our financial performance, which marks the sixth consecutive quarter of accelerating comps and reflects continued progress on our key strategic initiatives," said Brian Niccol, Chief Executive Officer. "These strong results were delivered despite a tougher year over year comparison and benefited from better restaurant operations, more effective marketing, and leveraging our digital make line to grow sales and expand access."

Results for the three months ended June 30, 2019:

Revenue in the second quarter increased to \$1.4 billion, an increase of 13.2% compared with the same quarter a year ago. The increase in revenue was driven by a 10.0% increase in comparable restaurant sales. Comparable restaurant sales improved primarily due to a nearly 7% increase in comparable restaurant transactions and an approximate 3.5% increase in the average check, which includes a benefit from menu price increases that were implemented during 2018, partially offset by approximately 40 basis points as a result of deferred revenue from our Chipotle Rewards loyalty program.

We opened 20 new restaurants during the quarter and closed 1, bringing the total restaurant count to 2,523.

Food, beverage and packaging costs were 33.7% of revenue, an increase of 110 basis points compared to the second quarter of 2018. The increase was primarily due to the increased cost of avocados and, to a lesser extent, increased dairy costs, partially offset by the benefit of menu price increases nationwide at the end of 2018.

Restaurant level operating margin was 20.9%, an increase from 19.7% in the second quarter of 2018. The improvement was driven primarily by leverage from the comparable restaurant sales increase, partially offset by wage inflation at the crew level, higher food costs, and increased delivery, marketing and promotional expenses.

General and administrative expenses for the quarter was \$121 million on a GAAP basis, or \$97 million on a non-GAAP basis, excluding \$4 million related to transformation expenses, and \$20 million for legal reserves. GAAP and non-GAAP general and administrative expenses includes \$21 million related to non-cash stock compensation, and \$4 million related to higher bonus accruals from our strong operating performance and payroll taxes on stock option exercises. Without these items, underlying general and administrative expenses totaled \$72 million for the second quarter of 2019, similar to the first quarter of 2019 and in-line with expectations. The \$20 million for legal reserves related to legal proceedings, much of which relate to older cases, includes an estimate for the previously disclosed government investigation that has been on-going for

nearly four years.

Impairment, closure costs, and asset disposals decreased \$40.8 million for the three months ended June 30, 2019, compared to the second quarter 2018, primarily due to elevated impairment in the comparable period 2018.

The effective tax rate decreased to 26.6% for the three months ended June 30, 2019, from 33.3% in the second quarter of 2018. The decrease was primarily due to current quarter excess tax benefits from stock compensation, and a favorable reduction in non-deductible employee meals, partially offset by a portion of the loss contingencies related to legal proceedings recorded this quarter that are non-deductible.

Net income was \$91.0 million, or \$3.22 per diluted share, an increase from \$46.9 million, or \$1.68 per diluted share, in the second quarter of 2018. Excluding the impact of restaurant closure costs, corporate restructuring, legal reserves, and certain other costs, adjusted net income was \$112.9 million and adjusted diluted earnings per share was \$3.99.

During the quarter, our Board of Directors approved the investment of up to an additional\$100 million, exclusive of commissions, to repurchase shares of our common stock. This repurchase authorization, in addition to approximately \$46.6 million available as of June 30, 2019, for repurchases under previously announced repurchase authorizations, may be modified, suspended, or discontinued at any time.

Outlook

For 2019, management is anticipating the following:

- High single digit comparable restaurant sales growth, up from the prior mid to high single digit range expectation
- 140 to 155 new restaurant openings
- An estimated underlying effective full year tax rate in the range of 26% and 29%

Definitions

The following definitions apply to these terms as used throughout this release:

- Comparable restaurant sales, or sales comps, and comparable restaurant transactions, represent the change in period-over-period sales or transactions for restaurants in operation for at least 13 full calendar months.
- Average restaurant sales refers to the average trailing 12-month sales for restaurants in operation for at least 12 full calendar months.
- **Restaurant level operating margin** represents total revenue less direct restaurant operating costs, expressed as a percent of total revenue.

Chipotle Mexican Grill, Inc. Reconciliation of Non-GAAP Financial Measures (in thousands, except per share amounts) (unaudited)

The following provides a reconciliation of non-GAAP financial measures presented in the text above to the most directly comparable financial measures calculated and presented in accordance with GAAP.

Adjusted net income is net income excluding restaurant asset impairment, corporate restructuring, and certain other costs. Adjusted diluted earnings per share is adjusted net income divided by diluted weightedaverage common shares outstanding. We believe that these measures enhance investors' ability to compare the past financial performance of our underlying business with our current business performance and reflect the performance of our underlying restaurants separate from asset impairment, corporate restructuring and certain other costs at the corporate level. Management uses these non-GAAP measures for similar purposes. Our adjusted net income and adjusted diluted earnings per share measure may not be comparable to other companies' adjusted income measures.
